WASHINGTON IS DETERMINED

Agreement Is Reached On Marking POW Areas

MUNSAN, Jan. 23.—(P)—Staff officers have arranged to protect Allied troops in prisoner of war camps from air attack.

Agreement was reached as the United Nations Command acknowledged Allied planes last week inadvertently dropped a bomb near Kaesong, Red truce headquarters, and may have strafed a Communist armistice convey.

Communist officers have agreed to supply a map marked with the exact location of the 11 POW camps in North Korea. It also will show a camp where non-Korean civilians are interned.

Communist also agreed to mark these camps so they may be identified from the air by daylight, but they refuse to light the camps at night as the UN asked.

Armistice negotiators failed again to make any progress. The UN's Adm. R. E. Libby commented "it looks like a complete stalemate" ahead.

IN WASHINGTON, officials said the United States and its allies are determined to exhaust every reasonable means of obtaining an agreement on an armistice.

They expressed hope that the present prolonged deadlocks over the airfield and prisoner-of-war issues eventually would be resolved. They said they definitely would be if the Reds sincerely wanted to end the Korean fighting.

These authorities conceded, however, that the negotiations which began more than six months ago may drag on for many more weeks.

Meanwhile, Allied jets shot down two Communist Mig-15s over Northwest Korea, probably

Wheat Pact Is Boomed As Curb On Reds

WASHINGTON, Jan. 23.—(P)—President Truman is urging extension of an international wheat agreement, believing it helps thwart Communism in Europe.

The agreement, put into effect more than two years ago, expires next year. Designed to stabilize world supplies and prices of the bread grain, it uses a system of export and import quotas and maximum and minimum prices. Forty-two importing and four exporting countries participate. The U. S. is the largest exporter.

Because wheat prices in this country have been above world market prices set by the pact, it has cost the U. S. Treasury more than \$400 million in subsidies to supply its share of the grain. The cost probably will exceed \$600 million by the time the four-year agreement expires in July, 1953.

When U. S. prices are above prices set by the agreement, the government makes up the difference in the form of subsidies to exporters. At present, the subsidy averages about 65 cents a bushel, or about a fourth of the price of the grain.

The U. S. Fifth Air Force said films showed that one Red plane listed earlier as a probable definitely was destroyed.

The Russian-type Migs were out in force all day Wednesday, but there was only one aerial battle. Allied pilots said the Migs fled across the Yalu when the U. S. F-86 Sabrejets headed toward them.

Scattered fighting broke out all along the frozen 145-mile ground front. The heaviest engagement was on the central front where an ambushed Allied patrol fought a brief engagement with an unknown number of Reds.

Cincy Influence Seeker Found To Be Guilty

DAYTON, Jan. 23.—(P)—A federal court jury Tuesday convicted Lawrence A. Razete, Cincinnati businessman, of giving \$900 and a radio to an Air Force buyer to influence award of contracts to his company, and conspiring with the buyer to defraud the government.

Razete and Luther M. Kratz, a former Wright-Patterson Air Force Base buyer who pleaded guilty to accepting the gratuities and conspiring with Razete, will be sentenced by U. S. District Judge Robert R. Nevin Tuesday. Kratz was a government witness at Razete's trial.

They face possible sentences of three years in prison and fines of \$10,000 on each of four counts of giving or receiving gratuities, and five years in prison and \$10,000 on one count of conspiracy.

Government attorneys said Razete's firm, the Cincinnati Raytronics Co., received contracts totaling between \$5 and \$6 million.

Razete's attorneys offered no defense. They claimed the government had not proved the charges beyond a reasonable doubt. They said they would appeal.

Housing Project At Polk Studied

CAMP POLK, Jan. 23.—(P)—With 8,000 former Ohio National Guardsmen moving into Camp Polk, federal authorities will begin construction immediately on 200 trailer sites to ease housing situation in this hill country area.

The Guardsmen, members of the 37th Infantry Division which began federal service Jan. 15, will complete their moving Thursday. Seven trainloads arrived Tuesday.

The trailer sites will be built on the post and will be furnished, owned and operated by the government. The Housing and Homes Finance Agency will establish rental rates.

'Piggy Bonds' Are Proposed

WASHINGTON, Jan. 23.—(P)—A congressional committee suggests the sale of "piggy bonds" purchased with the kids' pennies—to encourage juvenile thrift and to cope with a coin shortage.

Author of the idea, Rep. Sieminski (D-NJ) said the "piggy bonds" would cost \$3.75 in pennies, presumably taken from piggy banks, and would pay off \$5 in ten years.

New Winter Blast Coming Mercury To Read Zero Or Below

CHICAGO, Jan. 23.—(P)—Sub-zero cold spread over wide areas of the Midwest Wednesday as wintry weather of snow, ice and strong winds hit areas from the Rockies to New England.

The Dakotas and Western Minnesota dug out from a blizzard that nearly paralyzed transportation. Snowplow crews worked overnight in the biting cold to open the wind-drifted roads of packed snow in the blizzard belt.

It was 30 degrees below zero in Grand Forks, N. D. Minnesota reported readings of -20 and it was -12 in Iowa. No immediate relief from the icy blasts was in prospect.

Ohio was beginning to feel the wintry blast. The weatherman said the mercury would drop Wednesday night to zero or below. He gave little hope there would be relief before Friday.

THE ARCTIC air from Western Canada that hit the Northern Rockies and Northern Plains pushed across the continent. It was cold southward to the Gulf of Mexico and eastward to the Appalachians.

Winds, which reached velocities of more than 50 miles an hour in the Dakotas and Minnesota, diminished as the blast of sub-zero cold struck. Schools were closed in hundreds of communities.

Northern California was freeing itself further from the worst snowstorm in a half century which hit the area earlier this month. But a forecast of warm rains appeared as a possible threat to heavy run-offs from thaws in the snowpacked Sierras.

Canuck White Sidewall Tires Irking Solon

WASHINGTON, Jan. 23.—(P)—Rep. Bender (R-Ohio) claims American tire manufacturers are not allowed to make white sidewall tires, while Canadian rubber makers "are turning them out in great quantities" for sale in the United States.

Bender told E. Dorrance Kelly, director of the National Production Authority's rubber division that "there is absolutely no shortage whatever of the rubber required in this process." He added:

"Tire manufacturers are at a complete loss to understand why federal officials in our National Production Authority have banned the manufacture of this item at a time when Canadian rubber companies are turning them out in great quantities."

"What has happened is that folks who bought cars with white sidewall tires are now forced to scramble in the market for tires brought into our country from Canada, and they must pay twice as much for the same tires as they formerly paid right here at home."

Atomic Program Expansion Eyed

WASHINGTON, Jan. 23.—(P)—Senator Maybank (D-SC) says he hopes for an early start on a five-year expansion of the atomic energy program planned by President Truman to cost up to \$6 billion.

"The beginning phases of the expansion will be on a modest scale and I am hoping it will get underway soon," Maybank said, adding:

"There have been no decisions yet as to just where the new program will be undertaken, or whether new facilities will be constructed or existing ones enlarged."

FLIP OF COONSKIN CAP BEING AWAITED

Mike DiSalle To Make Race For Bricker's Senate Seat

WASHINGTON, Jan. 23.—(P)—Michael V. DiSalle announced Wednesday he will quit as price boss to run for the United States Senate in Ohio.

DiSalle would seek the Democratic nomination. Sen. John Bricker, Republican, comes up for reelection this year.

And on another political front, observers look for Sen. Estes Kefauver of Tennessee to flip his coonskin cap into the ring sometime Wednesday afternoon in a formal bid for the Democratic presidential nomination.

DiSalle told a news conference the date he leaves the Office of Price Stabilization will be determined later. He said he might remain for some time, probably until President Truman names a successor.

DiSalle made the announcement after he had talked with the President in the White House for some 50 minutes.

DiSalle had arranged to announce his future plans Tuesday. But at the last moment he agreed to a request by Roger L. Putnam, chief of the Economic Stabilization Agency, to postpone the decision 24 hours.

Late Tuesday, DiSalle told reporters he still could not make up his mind whether to seek the Democratic nomination in Ohio

May 6 for the Senate seat now held by Bricker.

He said there had been pressure from Democratic leaders in Ohio to make the race and from administration leaders in Washington to stay on the job as price chief, temporarily at least.

As for Kefauver, the lanky one-time chairman of the Senate Crime Investigating Committee scheduled a news conference for late Wednesday and said nothing in advance to knock down reports he would announce his candidacy.

"I definitely am going to disclose my intentions," Kefauver said.

Supporters already have entered Kefauver's name in the April 8 Illinois presidential primary, where Sen. Brian McMahon, Connecticut Democrat, also will be a contestant.

Noting McMahon's entry in that primary, Kefauver commented,

"competition is a fine thing," and said the development "should make for a race in fine spirit."

Reports persisted that McMahon was in the Illinois race as part of a move by backers of President Truman to counter Kefauver.

But Mr. Truman still is keeping everybody guessing on whether he will seek another term.

Solons Laud Ike's Move

Unified Europe Idea Given High Praise

WASHINGTON, Jan. 23.—(P)—Gen. Dwight D. Eisenhower's proposal for a constitutional convention to unify Europe has brought applause from the U. S. Congress.

The statement from Supreme Headquarters Allied Forces in Europe got avid attention from lawmakers and politicians. It was Eisenhower's first public statement since his dramatic announcement that he would accept the Republican nomination for President.

Politically-minded observers asked if it would be a pattern for other Eisenhower statements.

Senators of both parties said they agreed with Eisenhower when he said:

1. Russia may plan a global war eventually but right now could not win at a single stroke. "It would not look to me to be a sensible thing to provoke a global war, and I think that also includes Russians."

2. THE MERE call for a European unity convention "would mean a lot in the United States," which can not alone bear the entire burden of the North Atlantic treaty.

3. Long-term defensive security in Europe "can not gain strength and stability if it (Europe) is to remain split up in a number of independent economies."

Senator Kefauver (D-Tenn.), expected momentarily to announce his formal entry into the Democratic presidential race, said the Eisenhower proposal is "in the right direction."

"If they will get unified, then it will be easier for us to work with them," Kefauver said.

Senator Wiley (R-Wis.), ranking GOP member of the Foreign Relations Committee, said "Ike's move is splendid."

Letter Asking Death Penalty Costs \$46,000

MEDINA, Jan. 23.—(P)—Randi Mast was deeded a \$22,000 farm by the man who plotted her husband's murder, but lost it and an additional \$24,000 because she wrote the governor she wanted him electrocuted.

Henry Larabee, attorney for Max Amerman, who died Nov. 15 in the electric chair, disclosed that his 27-year-old client took Mrs. Mast's name off his insurance policies after learning the 24-year-old Norwegian war bride had asked Gov. Frank J. Lausche to deny clemency to him and 18-year-old Gerald Killingler.

Amerman and the youth were convicted of the ambush murder of Harold E. Mast, 23, on Oct. 5, 1950. Amerman admitted he persuaded Killingler to shoot Mast. He said he wanted to continue an affair with Mast's wife, Randi.

Lausche commuted Killingler's sentence to life imprisonment. Mrs. Mast will get nothing from Amerman's will, although he left her name in it. He left her the residue after bequests of \$1,000 to Medina Community Hospital and \$500 to the Knights of Pythias. The residue of \$1,600 will go for administrative costs, Larabee said.

Chief beneficiaries of the insurance are the Medina County Hospital, \$5,074; Medina County YMCA, \$3,360 each; and Mrs. Dorothy Howard, a Cleveland cousin, \$9,000. A \$3,360 allotment was put in a trust fund for religious work.

WAVING to onlookers, Sen. Estes Kefauver (D, Tennessee), arrives at the White House to confer with President Truman "about political matters." The former Senate Crime Committee chairman told newsmen after the meeting that he will announce on Feb. 1 his decision on whether he will seek the Democratic presidential nomination.

Reds Filtering Into Factories In Ohio Now

COLUMBUS, Jan. 23.—(P)—A former party member testified Tuesday Communists are getting jobs in hundreds of Ohio factories, so they can commit sabotage in case of war with Russia.

Charles Baxter of Cleveland told the Ohio Un-American Activities Commission the Communist workers are being sent from New York, because they are less likely to be known as Communists than Ohio party members.

Baxter, a Communist from 1927 to 1945, now advises the Federal Immigration Service and Justice Department on Red affairs.

"You've got to win over the trade unions to your position," Baxter told the commission. "They (the trade unions) are on your side. They have been fighting the Communists in the CIO and longer in the AFL."

Baxter testified the Communists are trying to lure Negroes into the party with the promise of an eventual Negro republic in Dixie, where Negroes would run the government. But, he said, most Negroes are proving to be loyal Americans.

He said the Communists also are trying to turn Negroes against the U. S. by charging the U. S. with Negro genocide (racial extermination).

Commission Chairman Gordon Renner of Cincinnati said other witnesses would be summoned to another hearing in about three weeks.

Now Philly Cops Can Go To Homes

PHILADELPHIA, Jan. 23.—(P)—Philadelphia has freed the city's 43 police captains and inspectors from an ancient bondage by ruling they can go home to sleep every night.

Commissioner Thomas J. Gibbons threw out an archaic ruling that the police commanders had to sleep in their stationhouses between midnight and 8 a. m.

With the invention of the telephone, the radio and the auto the officers will be easily accessible even if sleeping at home, he observed.

Farmer's Fleece Finances Flings

GRANBY, Que., Jan. 23.—(P)—George Dubois, 26, gave terrific parties and handed out \$50 tips when he bought cigars. Folks around here called him "the millionaire of Granby."

On a trip to England in 1950 he handled money in such a way that one newspaper called him "the most generous man in the world."

Police arrested him Tuesday, said all his high living and generosity was financed by fleecing \$87,150 from a farmer Adeodat Marquette, 55.

5 Persons On Ground Are Killed

Ex-War Secretary Patterson Among 23 In Big Plane

ELIZABETH, N. J., Jan. 23.—(P)—A fog-bound American Airlines passenger plane, groping its way into Newark Airport on instruments, nose-dived into a residential area late Tuesday afternoon and brought flaming death to its 23 occupants and five other persons.

Robert P. Patterson, 60-year-old former secretary of war, was one of the plane's victims.

The silver, twin-engine Convair, inbound from Buffalo, hurtled into a three-story frame apartment building and exploded in a mass of leaping, orange flame that enveloped two nearby dwellings.

A mother and her two children were killed as their home collapsed about them in a hurricane-like blast. A third child, trapped in another building, and an unidentified person also died in the flames.

Eleven persons were injured, including nine occupants of nearby homes. Also hurt were a fireman and a rescue worker, who joined disaster units at the scene, just 2.8 miles from the airport.

FOR 90 MINUTES, no one could get near the raging inferno, where the 18 passengers, three crew members and two company personnel aboard the plane were burned beyond recognition.

Clouds of steam and smoke blanketed the area, which is less than a mile from the spot where a Miami Airline plane crashed in the shallow Elizabeth River 38 days ago, killing 56 persons in the nation's second worst commercial plane disaster.

The Tuesday crash brought immediate demands from New Jersey's two U. S. senators and a congressman for a full investigation of the plane and Newark Airport facilities.

Mayor James T. Kirk said this city of 112,000, about 12 miles southwest of New York City, has been living under an "umbrella of danger" and that Newark Airport should be relocated "regardless of cost."

Positive identification of Patterson—the first of the dead named here—was made through dental charts.

'Booby Trap' Parcel-Mailer Held By Police

DENVER, Jan. 23.—(P)—Donald R. Rankin, 27, has been arrested here on a charge of mailing a dynamite "booby trap" to a Bowling Green, O., man.

Postal Inspector R. B. Dunbar accused Rankin of mailing a package containing 15 sticks of dynamite to explode when the package was opened—to Douglas McCray, a 27-year-old Bowling Green truck driver, early this month. McCray took the package to authorities unopened.

McCray said he did not know Rankin, but had dated Mrs. Rankin in 1944 before she was married. He said the future Mrs. Rankin then was attending Bowling Green State University. He said he had not seen her since.

Dunbar also accused Rankin of going to McCray's home in Bowling Green last Dec. 8 and firing his shots at him. One bullet hit McCray in the shoulder.

The package containing the dynamite was mailed from Cheyenne, Wyo. It was preceded by a letter, also from Cheyenne, and purporting to be from the FBI. The letter told McCray he would receive a package containing pictures of a man suspected of shooting him.

Bishop Urges Ban On Beer In UMT Camps

WASHINGTON, Jan. 23.—(P)—A Methodist bishop has labeled beer an "insidious enemy" and has urged complete prohibition in any camps used for Universal Military Training.

Bishop Wilbur E. Hammaker told the House Armed Services Committee that 3.2 per cent beer "is not such an innocent little beverage as some folks suggest and believe."

He urged the committee to write into a UMT law prohibitions against making beer and liquor of any kind available in training camps.

The bishop's statement was part of testimony by nine witnesses opposing UMT. Supporters testified earlier. The committee is holding open hearings on a proposal to begin some form of UMT this year.

Bishop Hammaker urged the committee to consider "the desolation and ruin that may come to a soldier boy through the beer drinking habit."

Riots Continue As Tunisians Battle French

TUNIS, Jan. 23.—(P)—Five thousand Arab demonstrators stormed a police station Wednesday in a village near Moknine, Tunisian coastal city. First reports said at least three policemen were killed and two taken as hostages.

The latest outbreak of rioting in this French protectorate brought the death toll to 31 in a week of violence and unrest stemming from nationalist demands for independence. Moknine is 120 miles southeast of Tunis.

Arab shopkeepers are keeping their places closed in Tunis, the capital, where Arab leaders have proclaimed a general strike. During the morning nationalist demonstrators hurled stones at a trolley bus and smashed the windows.

In Paris, it was disclosed that the bey of Tunis, Sidi Mohammed Al Amin, is officially backing up his Arab ministers who have asked for help from the United Nations in their struggle for home rule.

Missourian Sure Truman Will Run

WASHINGTON, Jan. 23.—(P)—President Truman's home state national Democratic committee man said Wednesday there is "no doubt" in his mind that Mr. Truman will be a candidate for reelection.

John Mangle, the Missouri committeeman, told reporters after a White House call that Mr. Truman had not informed him of his intentions, but "I do think President Truman will run for the presidency again."

Mangle had said earlier he thought Mr. Truman had "earned a rest" from the cares of office and repeated he still thinks so. However, he said he favors the President's making the race.

WAVING to onlookers, Sen. Estes Kefauver (D, Tennessee, arrives at the White House to confer with President Truman "about political matters." The former Senate Crime Committee chairman told newsmen after the meeting that he will announce on Feb. 1 his decision on whether he will seek the Democratic presidential nomination.

Reds Filtering Into Factories In Ohio Now

COLUMBUS, Jan. 23.—(P)—A former party member testified Tuesday Communists are getting jobs in hundreds of Ohio factories, so they can commit sabotage in case of war with Russia.

Charles Baxter of Cleveland told the Ohio Un-American Activities Commission the Communist workers are being sent from New York, because they are less likely to be known as Communists than Ohio party members.

Baxter, a Communist from 1927 to 1945, now advises the Federal Immigration Service and Justice Department on Red affairs.

"You've got to win over the trade unions to your position," Baxter told the commission. "They (the trade unions) are on your side. They have been fighting the Communists in the CIO and longer in the AFL."

Baxter testified the Communists are trying to lure Negroes into the party with the promise of an eventual Negro republic in Dixie, where Negroes would run the government. But, he said, most Negroes are proving to be loyal Americans.

He said the Communists also are trying to turn Negroes against the U. S. by charging the U. S. with Negro genocide (racial extermination).

Commission Chairman Gordon Renner of Cincinnati said other witnesses would be summoned to another hearing in about three weeks.

Now Philly Cops Can Go To Homes

PHILADELPHIA, Jan. 23.—(P)—Philadelphia has freed the city's 43 police captains and inspectors from an ancient bondage by ruling they can go home to sleep every night.

Commissioner Thomas J. Gibbons threw out an archaic ruling that the police commanders had to sleep in their stationhouses between midnight and 8 a. m.

With the invention of the telephone, the radio and the auto the officers will be easily accessible even if sleeping at home, he observed.

Farmer's Fleece Finances Flings

GRANBY, Que., Jan. 23.—(P)—George Dubois, 26, gave terrific parties and handed out \$50 tips when he bought cigars. Folks around here called him "the millionaire of Granby."

On a trip to England in 1950 he handled money in such a way that one newspaper called him "the most generous man in the world."

Police arrested him Tuesday, said all his high living and generosity was financed by fleecing \$87,150 from a farmer Adeodat Marquette, 55.

5 Persons On Ground Are Killed

Ex-War Secretary Patterson Among 23 In Big Plane

ELIZABETH, N. J., Jan. 23.—(P)—A fog-bound American Airlines passenger plane, groping its way into Newark Airport on instruments, nose-dived into a residential area late Tuesday afternoon and brought flaming death to its 23 occupants and five other persons.

Robert P. Patterson, 60-year-old former secretary of war, was one of the plane's victims.

The silver, twin-engine Convair, inbound from Buffalo, hurtled into a three-story frame apartment building and exploded in a mass of leaping, orange flame that enveloped two nearby dwellings.

A mother and her two children were killed as their home collapsed about them in a hurricane-like blast. A third child, trapped in another building, and an unidentified person also died in the flames.

Eleven persons were injured, including nine occupants of nearby homes. Also hurt were a fireman and a rescue worker, who joined disaster units at the scene, just 2.8 miles from the airport.

FOR 90 MINUTES, no one could get near the raging inferno, where the 18 passengers, three crew members and two company personnel aboard the plane were burned beyond recognition.

Clouds of steam and smoke blanketed the area, which is less than a mile from the spot where a Miami Airline plane crashed in the shallow Elizabeth River 38 days ago, killing 56 persons in the nation's second worst commercial plane disaster.

The Tuesday crash brought immediate demands from New Jersey's two U. S. senators and a congressman for a full investigation of the plane and Newark Airport facilities.

Mayor James T. Kirk said this city of 112,000, about 12 miles southwest of New York City, has been living under an "umbrella of danger" and that Newark Airport should be relocated "regardless of cost."

Positive identification of Patterson—the first of the dead named here—was made through dental charts.

President Truman described him (Continued on Page Two)

'Booby Trap' Parcel-Mailer Held By Police

DENVER, Jan. 23.—(P)—Donald R. Rankin, 27, has been arrested here on a charge of mailing a dynamite "booby trap" to a Bowling Green, O., man.

Postal Inspector R. B. Dunbar accused Rankin of mailing a package containing 15 sticks of dynamite to explode when the package was opened—to Douglas McCray, a 27-year-old Bowling Green truck driver, early this month. McCray took the package to authorities unopened.

McCray said he did not know Rankin, but had dated Mrs. Rankin in 1944 before she was married. He said the future Mrs. Rankin then was attending Bowling Green State University. He said he had not seen her since.

Dunbar also accused Rankin of going to McCray's home in Bowling Green last Dec. 8 and firing our shots at him. One bullet hit McCray in the shoulder.

The package containing the dynamite was mailed from Cheyenne, Wyo. It was preceded by a letter, also from Cheyenne, and purporting to be from the FBI. The letter told McCray he would receive a package containing pictures of a man suspected of shooting him.

New Angle

SEOUL, Jan. 23.—(P)—Maj. Herbert Fourt of Oklahoma City caught a Red tank crossing a frozen river and blasted the ice with an artillery round. He reported: "Sighted tank, sank same."

as "a great American and a great public servant."

WHENEVER his country called, he answered with unreserved service and he brought to every post rare judgment, understanding and energy," the President said.

Patterson, under secretary of war throughout World War II and secretary from September, 1945, until July, 1947, had been in Buffalo for a federal court case. When the case ended sooner than he had expected, Patterson made a last minute switch from train reservations to the airliner.

The plane had started its landing approach to Newark Airport runway 6 at 3:39 p. m. from a height of about 1,500 feet, using an instrument landing system, with an assist from the airport's radar. The ceiling was down to 400 feet and visibility was cut to three-fourths of a mile.

It was reported coming in on its glide path. Suddenly, the plane dropped out of view of the radar scope and crashed.

The pilot, 33-year-old Capt. Thomas J. Reid, lived only three blocks from the spot where the plane crashed. His wife, Henrietta, said Reid had "just completed an airlift to Japan."

Mrs. Reid, mother of two children, is expecting a third child next summer.

An immediate investigation into the cause of the crash was launched by Joseph O. Fluet, regional director of the Civil Aeronautics Board, who only recently completed a probe of the Florida-bound C-46 crash here.

American Airlines said its accident record until the crash was 4.6 billion passenger miles flown since Nov. 29, 1949, without a fatality.

2-Year-Old Lad Suffers Burns As Grease Spills

Timmy Wells, 2-year-old son of Mr. and Mrs. James Wells of Ashville Route 1, suffered first and second degree burns late Monday in his home.

The youngster reportedly was playing near the kitchen stove while his mother prepared supper.

The accident happened when the youngster reportedly grasped the handle of a french-frying unit. Hot grease cascaded down on him.

Young Wells was given emergency treatment in Berger hospital for first and second degree burns of his left arm, neck, face and scalp.

Kissing Window May Be All Right

CAIRO, Jan. 23.—The Egyptian high court has decided that kissing a closed train window when you bid goodbye to your friend may not be an "indecent public act" after all.

The judges ordered a new trial for Mustafa Ibrahim, who had been fined five pounds (\$14) for breaking this Moslem country's strict laws against public kissing. He had kissed the train window as his girl departed. She was behind the glass.

Tax Collector Is Found Guilty

BOSTON, Jan. 23.—A federal jury has convicted Denis W. Delaney, ousted Massachusetts collector of internal revenue, of accepting \$7,500 in bribes and falsely certified payment of \$180,000 in tax liens.

Judge Charles E. Wyzanski Jr. allowed Delaney to remain free in \$2,500 bond pending sentencing next week. The 55-year-old Delaney faces maximum penalties of 18 years imprisonment and fines of \$37,500.

Churches Urged To Avoid Raffles

LOS ANGELES, Jan. 23.—Bishop Francis Eric Bloy says churches in the Los Angeles Episcopal diocese should not raise money by raffles or games of chance.

Firm Accused In Marketing Of Torch Sweaters

A federal accusation has been launched against a Philadelphia manufacturing firm for marketing "highly inflammable" sweaters.

Named in the accusation was the firm of Fisher and DeRitis, accused of failing to disclose the nature of the fabric used in the "torch sweaters."

The Federal Trade Commission, in filing the action, said material used in manufacture of the sweaters was brush rayon and not wool. The FTC continued that purchasers might have been led to believe, from the trade marks, that the material was wool.

CINCINNATI became concerned with the situation about two weeks ago when several "bargain" sweater sets were purchased from peddlers.

The sweaters were highly lustrous and highly inflammable, burning with an explosive action.

Several of the "bargain" sweater sets have been turned over to authorities here, although some others may in the area since there was no method of determining how many sets were sold here.

County authorities have issued a stern warning for anyone who purchased the sweater sets to turn them in, since they are extremely dangerous.

First Cavalry Now In Japan

HOKKAIDO, Japan, Jan. 23.—The battle-hardened U. S. First Cavalry Division has been pulled out of Korea to defend Japan's northernmost island.

Russian troops on Habomai Island are only 3 1/2 miles away. Russian-occupied Kuriles are 10 miles to the east. Russia's Sakhalin is less than 30 miles to the north.

Maj. Gen. Thomas L. Harold, division commander, said: "If they land here we'll be ready for them with everything we have. We feel we are as much on the front line here as we ever were in Korea."

2-Year-Old Lad Suffers Burns As Grease Spills

Timmy Wells, 2-year-old son of Mr. and Mrs. James Wells of Ashville Route 1, suffered first and second degree burns late Monday in his home.

The youngster reportedly was playing near the kitchen stove while his mother prepared supper.

The accident happened when the youngster reportedly grasped the handle of a french-frying unit. Hot grease cascaded down on him.

Young Wells was given emergency treatment in Berger hospital for first and second degree burns of his left arm, neck, face and scalp.

Kissing Window May Be All Right

CAIRO, Jan. 23.—(P)—The Egyptian high court has decided that kissing a closed train window when you bid goodbye to your girl friend may not be an "indecent public act" after all.

The judges ordered a new trial for Mustafa Ibrahim, who had been fined five pounds (\$14) for breaking this Moslem country's strict laws against public busing. He had kissed the train window as his girl departed. She was behind the glass.

Tax Collector Is Found Guilty

BOSTON, Jan. 23.—(P)—A federal jury has convicted Denis W. Delaney, ousted Massachusetts collector of internal revenue, of accepting \$7,500 in bribes and falsely certified payment of \$180,000 in tax liens.

Judge Charles E. Wyzanski Jr. allowed Delaney to remain free in \$2,500 bond pending sentencing next week. The 55-year-old Delaney faces maximum penalties of 18 years imprisonment and fines of \$37,500.

Churches Urged To Avoid Raffles

LOS ANGELES, Jan. 23.—(P)—Bishop Francis Eric Bloy says churches in the Los Angeles Episcopal diocese should not raise money by raffles or games of chance.

He said no church should accept money from outside sources which is "raised either from horse track charity days or from lotteries or games of chance. In this day of moral sag, the Church must not retreat from what she believes is right."

Firm Accused In Marketing Of Torch Sweaters

A federal accusation has been launched against a Philadelphia manufacturing firm for marketing "highly inflammable" sweaters.

Named in the accusation was the firm of Fisher and DeRitis, accused of failing to disclose the nature of the fabric used in the "torch sweaters."

The Federal Trade Commission, in filing the action, said material used in manufacture of the sweaters was brush rayon and not wool. The FTC continued that purchasers might have been led to believe, from the trade marks, that the material was wool.

CIRCLEVILLE became concerned with the situation about two weeks ago when several "bargain" sweater sets were purchased from peddlers.

The sweaters were highly lustrous and highly inflammable, burning with an explosive action.

Several of the "bargain" sweater sets have been turned over to authorities here, although some others may in the area since there was no method of determining how many sets were sold here.

County authorities have issued a stern warning for anyone who purchased the sweater sets to turn them in, since they are extremely dangerous.

Mid-Term Exams Begin Thursday

Circleville high school boys and girls are "boning up" this week for their annual mid-semester exams, slated to begin Thursday afternoon. The examination program will be held Thursday afternoon and 11 day Friday to test the knowledge of the youngsters at the end of the first half of the school year.

Each youngster will be examined for one and one-half hours in each academic subject in which he is enrolled.

Public Utilities Board To Discuss Wage Ordinance

Proposed ordinance to raise salaries of city water and sewage department employees will be discussed by the city public utilities board at 7 p. m. Wednesday.

The three-member board is complete again, with city council's appointment of George H. Fissell, to serve out the unexpired term of Rom Barnes, who died in November. John Mader and Dr. Ned Griner are other members.

The board vacancy has caused delay in acting upon the proposed pay hike, which had been drawn up for presentation to council in December.

IN A DECEMBER meeting the board shelved the proposed ordinance until a third member could be named.

Shortly before retiring from office, ex-mayor Thurman I. Miller had announced the appointment of Harold Defenbaugh, to fill the vacancy, but according to city councilmen no record of the appointment had been submitted to the lawmakers.

Councilmen declared the seat vacant, and upon submission of Fissell's name by Mayor Ed Amey, council approved the new appointment.

At tonight's meeting the proposed ordinance will be considered with an effort of presenting it to council at its next meeting Feb. 5.

Two Seek GOP Committee Posts

MAKING HASTE SLOWLY

THERE HAS BEEN considerable controversy over the progress of the defense and preparedness programs, particularly the production of arms. One administration spokesman gives assurance that production of arms and military equipment is ahead of schedule, and everything is coming along fine. The next day another spokesman says exactly the opposite, deploring the lack of production, and warns the populace that Russia is far ahead of the United States in producing implements of war from planes to hand grenades.

If production of arms has not progressed so rapidly, the Pentagon has an explanation. It will serve no purpose, it says, to pile up great stores of weapons which will become useless or inefficient because of more modern designs to come later. Military research is constantly developing better planes, tanks, guns—and guided missiles.

The Department of Defense is moving on the theory there will be another war. The problem, however, is to decide when it will explode. To be prepared for war tomorrow would provide merely a pile of scrap iron for a war several years hence. But it is important that timing of preparations for a possible conflict be reasonably accurate.

Military thinking is that the next war will not be fought with carbines, which would be no defense against atom bombs dropped by planes traveling 600 miles an hour. But carbines must be provided, in case it is necessary to revise this estimate later.

Aeronautical development is being speeded, but new type planes present production problems not present in World War II types.

A LESSON IN HISTORY

EVENTUALLY psychologists may have an explanation for the fad, but so far there seems to have been none for the current popularity with youngsters of the headgear of the Civil War Between the States. Fatigue caps worn by the blue and the gray have become almost the universal headgear, and millions have been sold, to the great profit of the manufacturers. That those of the Confederacy are more popular in the North has been the cause of comment.

Youngsters who have gone in for the caps on such a large scale have known little else but war. They play at war constantly. They drop imaginary atomic bombs on the "enemy," fly miniature jet planes, and in every way possible simulate actual conflict.

That they have reverted to the simpler warfare of the 60s is only a natural tendency. The attraction may be a recollection of the colorful figures in that war, the Robert Lees, the Grants, the Stonewall Jacksons and the Joe Shelys, of whom they had heard in school or at Grandpa's knee.

It might be well for adults to consider the evolution of war from the old muzzle-loading days to super-weapons, and wonder just where it will end. It must be admitted the youngsters do look cute in their caps.

If man wants but little here below, tax gatherers will see to it that he gets his wish.

MIT Finds That Everyone Has A 'Schwa'

By SAUL PETT
(For Hal Boyle)
NEW YORK—(AP)—How's your schwa?

Oh, come on now. You've got a schwa. Truman has a schwa. So has Eisenhower. Likewise Churchill, Yogi Berra, Senator Taft, Shirley Temple, Frank Costello. Everybody has a schwa because a schwa knows no barriers of sex, politics, class or geography.

Before you retire in confusion to the sports pages, let it be explained quickly what a schwa is. In a discussion of pronunciation, the Technology Review of the Massachusetts Institute of Technology says:

"Much of the variability in pronunciation of a given word arises from a strong tendency of some English vowel sounds to lose their individuality, and to be replaced by a neutral sound which phoneticians call the 'schwa.'"

You must understand, though, the schwa is not the phonetic spelling of the sound made. It simply is a name given by the experts to the sound.

A schwa, says the Technology Review, is the sound "produced by expulsion of breath with the vocal organs in a generally relaxed position" and "decidedly

resembles a grunt or groan."

The review adds: "The schwa occurs frequently in even the most precisely spoken English. For example the vowels of 'above' can be pronounced in no other way. If the reader will say this word aloud, he can satisfy himself that both the 'a' and the 'o' are pronounced with the equivalent of a grunt."

Readers who try this simple test and do not come up with a grunt are earnestly advised to contact MIT. The review says, the schwa is replacing more and more vowels in both good and

CHAPTER TWENTY-NINE
DONALD'S class was taking its midyear examination. The room was quiet save for the occasional shuffle of feet, a deep sigh, the dropping of a pencil. Donald, at his desk in the front of the room, seldom raised his eyes. He did not believe in close supervision. From the beginning he had treated his students as honorable adults and had expected honorable adult behavior in return. At first there had been incredulity, imposition on such apparent leniency, and some disciplinary problems. But gradually he had made himself felt.

He exhibited a long patience, although upon need his blue eyes could burn and his voice ring cold as steel. The quiet force he exuded then was far more telling than explosive anger. And his reprimands were invariably just. It was understood that he would stretch a point in favor of those he felt were mentally unable to keep up with him or the class. But toward the sloths, the deceivers, the gifted, he showed no such tolerance. He was, moreover, rigidly exact in his marking of papers and would always explain, if there were questions, now a mark had been arrived at. He could and did laugh with the boys and girls at their brand of humor, and he could and did make jokes of his own. For all these reasons, and also for his enthusiasm for his subject, but most of all for his interest in them as human beings, he had long before now become the most popular teacher in the high school.

He had led his pupils progressively from a consideration of themselves as individuals to a consideration of themselves as members of different social groups, toward which they held a measure of responsibility, in which they would find many varied opportunities for work and service, and where they could enjoy more freedom than is enjoyed anywhere else in the world. As individuals he had helped them explore and inquire into their inherited and acquired characteristics. He believed they thoroughly understood the Mendelian law; the various other influences that shaped them, such as parental attitudes, religious training, a well or poorly administered town; and, finally, the need for a good environment in homes and schools and neighborhoods, where, of course, of dating rules, of engagement.

As individuals he had helped them explore and acquire their inherited and acquired characteristics. He believed they thoroughly understood the Mendelian law; the various other influences that shaped them, such as parental attitudes, religious training, a well or poorly administered town; and, finally, the need for a good environment in homes and schools and neighborhoods where

they and all young people might grow to reach their best abilities and develop their finest characters. They had a pretty good idea, too, of what these homes and neighborhoods should be like.

He had stimulated them to think about such matters, and to realize that they had choices but that to exercise their choices rightly they must first discover the truth about situations. They must guard against bias and graft and corruption. They must also go behind propaganda, beware of the blare of radio, and read more than one newspaper. For only so could they get at the facts which would shape their decisions and their acts...

It had been an exciting and rewarding time. The boys and girls, enchanted to discuss personal problems rather than the larger, vaguer ones of town and state and nation, had responded with alacrity to the subject matter he had presented. They had been particularly pleased with the chance given them for self-analysis whereby they could come to a decision regarding their own future places in the world. Eagerly they had written papers setting forth their aims and ambitions, their selection of jobs or vocations, and their reasons for these selections. Then, briefly, he had outlined for them the differences there were in opportunities and requirements for the self-employed, the white collar workers, and the wage earners. Together they had compared risks, incomes, satisfactions, and, finally, the best ways of securing such work together with the part education played toward their probable success in it.

All this had prepared them for a consideration of themselves not only as individuals but as members of family groups and of their own homes, with their special obligations to them, and—last but not least—of the ways in which they would like to make improvements when they came to the point of establishing future homes for themselves. They had debated in class some of the strains and conflicts and arguments they themselves were meeting. These had covered a wide range of subjects—the matter of allowances, of compulsory church attendance, of unwanted advice as to dress, of whether or not wives and mothers should work, of the effects of divorce, of dating rules, of engage-

ments, of the proper age for marriage, of the meaning of marriage, and of racial differences. Donald had been both pleased and appalled at the frankness with which they talked and the questions they brought to him on which they sought advice. It was gratifying when, at his suggestion of remedial possibilities, his students returned to report successes.

"Mr. Kent!" The peremptory tone with its hint of pertness was Edna's.

"Miss Borowski?"

"I can't read that last word in the third question."

"Person. What are the objectives of education and what are some of the marks of an educated person?"

"Thanks."

Donald looked for a moment at the girl, bent again over the desk. Edna had taken on a special interest for him ever since Christmas Sunday when he had walked out of church and seen her standing there. In astonishment he had nodded a greeting and then, out of curiosity, had approached her.

"Surprised, aren't you," she had said saucily.

"Well, rather."

She had tossed her head, her eyes running quickly over the others coming out now.

Her lively glance, jumping from one exit to the other, was watching for someone, and she was holding him there in conversation with her as an excuse for lingering. When he saw her attention leave him momentarily and heard her running flow of words falter, he sought the cause and found it in Joe Melick. She stopped breathing as he passed her, seemed about to step forward toward him, and then was checked by his unseeing eyes. Donald had heard her give a quick gasp as if she had been slapped.

Abruptly, she had asked him a question. "Hey! Tell me. Didn't Anne Atwood come today?"

Startled, he waited a moment trying to establish the connection before he answered. But Anne had been coming out of the nearer door just then, and, as he was formulating a reply, Edna had said, "Never mind. Well, guess I'll be on my way. So long. See you!"

And, trippingly, with a curious look of mingled triumph and angry defeat on her face, she had departed.

Pages of time were turned back Tuesday evening when Order of Eastern Star celebrated the installing of Circleville chapter in 1898.

Following a meeting and ritual, the program was opened with group singing of songs popular at the turn of the century. Mrs. Ralph Dunkle directed the singing with Miss Reba Lee at the piano.

Another feature of the evening's entertainment was the reading of Circleville chapter's history by Miss Marie L. Hamilton. Mrs. E. S. Auding, a charter member of OES, was presented with a corsage.

Mrs. George Adkins conducted a biographical quiz on personalities in the news 54 years ago.

Concluding the program was a comedy skit with Ray Reid, Guy Sark, Guy Cline and J. Sam Morris. robbing themselves in women's clothing while blindfolded. The program was arranged by Miss Hamilton. Mrs. Dunkel, Mrs. William Cook and Dave McDonald.

After singing, "Auld Lang Syne," members were invited to the Red Room where the table was centered with an arrangement of cedar and candles. Approximately 75 members were served refreshments, including ice cream decorated with the numeral "54."

On the serving committee were Mrs. Nola Gulick, Mr. and Mrs. Ralph Cloud, Mr. and Mrs. Earl Boyer, Mr. and Mrs. Guy Cline, Mr. and Mrs. Lester George, Mr. and Mrs. Clifton Mahaffey, Mrs. Sam Childers, Mrs. George Kuhn, Mrs. William Snyder, Mrs. Clarissa Farmer and Mrs. Thurey Costlow.

Officers of Circleville chapter will exemplify the work Friday afternoon at the school of instruction at Washington C. H. Officers for district will be elected at that time.

Mrs. Russell Gibbs and members of Group 11 will have charge of refreshments when the organization meets Feb. 12.

Mrs. Frank Morrison
Addresses Monday Club

Monday Club was presented with a biographical sketch of one of the world's leading statesmen by Mrs. Frank Morrison. The subject of her address was, "Dr. Ralph J. Bunche". She said that:

"Dr. Bunche, a distinguished and honored graduate in political science from many of the foremost universities of the world, is the first Negro citizen of the United States to have had bestowed upon him the honor and distinction of winning the 'Nobel Peace Prize'. Only ten other Americans have had this honor bestowed upon them. This accomplishment was achieved by Dr. Bunche in the year 1950. He was chosen from a group of aspirants that included such outstanding international personalities as President Truman, Eleanor Roosevelt, General George Marshall, Winston Churchill and India's Prime Minister Nehru.

"Dr. Bunche was serving as United States Mediator to the United Nations when the opportunity for his great world service was presented him. His outstanding contribution and the feat which caused him to be chosen winner of the cherished Nobel Peace Prize was his negotiation in the year 1949 of the settlement of the war between the Israelis and the Arabians.

"It is said by many of the outstanding leaders of the world that his appointment as Chief of the Secretariat of the United Nations Palestine Commission was the most important and critical assignment in the U.N. history," Mrs. Morrison declared.

"He is considered by all the leaders of the United Nations to be the

Darby Rallies For 63-61 Win Over Invaders

Darby's Trojan basketballers were forced to stage a last-quarter scoring rally Friday night to pick up a narrow 63-61 decision over rugged invading Bloomington cagers.

Darby opened the fracas with a 15-10 lead in the first period, although the invaders caught fire in the second stanza to earn a 28-27 edge.

Bloomington advanced its lead to 47-44 at the end of the third period of the thriller, and with only four minutes of playing time remaining Darby found itself eight points behind.

Then Darby came through with a series of quick scores to close the gap, finally ending the match on top by two points.

Ronnie Kennard was top scorer for Darby's well-balanced lineup with 11 points, while D. Weaver paced the Bloomingtoners with 24.

Darby's next contest will be Friday night against invading Walnut Tiggers. Box score of Tuesday's thriller follows:

Deer Quintet Loses By 61-54 To West Jeff

Williamsport's Deer basketballers were nosed out of the win column at West Jefferson Tuesday night by a 61-54 margin.

The Deers trailed throughout the contest, trailing on the short end of 14-8, 24-19 and 46-40 period-end tallies.

However, Williamsport had advanced to within about three points of the lead in the last few minutes of play, only to have the West Jeffs develop a quick-scoring attack which cost the Deers a seven-point setback.

Ronnie James carried the brunt of the scoring load for the Deers in the test, earning 15 points during the evening. West Jeff's Murray took game honors with 19.

Williamsport's next encounter will be Friday night at Scioto. The game will be Scioto's Homecoming contest.

Walnut Tallies 50-38 Win Over Warrior Cagers

Walnut Tiger cagers tallied a comfortable 50-38 victory over invading Salt Creek Warriors Tuesday night in Walnut's gym.

Salt Creek held its own during the first half of the fracas, trailing only 13-11 in the first period and 25-24 at the half.

Walnut asserted itself in the third stanza, however, to rack up a 35-30 lead, while clinching it with the final 50-38 tally.

A feature of the game was the number of personal fouls called. Walnut was charged with 27 violations, while Salt Creek was penalized for 23 miscues.

Ronald Althous was top scorer in the encounter with 17 points for his Walnut crew, while Ned Reichelderfer and Donald Maxson tied for honors on the Warrior quint with 10 each.

Walnut's next game is Friday at Darby, while Salt Creek will travel to Ashville.

Tigers To Seek 2nd League Win At Wilmington

Circleville's Red and Black Tiger cagers will travel to Wilmington Friday night to seek their second South Central Ohio League win of the season.

The locals picked up their first league win of the year two weeks ago when they met Wilmington, defeating the Hurricane crew by a 64-52 margin here.

Circleville is expected to have a rougher time of it Friday night, however, since Wilmington will have the advantage of its own court and home-town rooters.

To date, Circleville has collected only three wins in 11 starts, including the one league win in four league starts.

HOWEVER, the locals have dropped a majority of their defeats by one, two and three points. Its last effort was last Friday, when Bexley bested the Tigers by a 66-65 margin.

Tiger cagers were given a breather from practice Monday, although returning for workouts Tuesday afternoon. Main problem facing the locals this week is semester exams, due Thursday afternoon and Friday.

Circleville's reserve team will be out after its fifth win of the season in Friday's preliminary fracas. The reserve tilt will begin at about 7 p. m., followed by the varsity match at about 8:15 p. m.

Raiders Collect 34-23 Victory Over Broncos

An ailing Ashville Bronco basketball team dropped a 34-23 decision to Atlanta's Red Raiders Tuesday night on the Atlanta court.

Missing two of its regular starters, Charlie Hardin and Fred Bandy, the Broncos stalled the ball throughout most of the encounter to hold the score down.

Atlanta had little trouble in collecting a 7-4 lead in the first frame, tallied a low-scoring 11-8 midmark margin and earned a 22-13 advantage going into the final frame.

Roger Fox was Atlanta's top scorer in the one-sided encounter with 11 points, while Bob Norris of Ashville tied for game honors with 11 also.

Atlanta's next encounter will be Friday night against invading New Holland Bulldogs, while Ashville will play host to Salt Creek's Warriors.

Sokolsky's These Days

(Continued from Page Four)
Agatai Khan and Kublai Khan, lived in Oriental splendor and ceremony which were a far cry from their origin. Even Napoleon, the Corsican, learned how to strut his position.

The civilian knows when his day is done and he is reduced to simple citizenship, often to obscurity. Herbert Hoover and even Harry Truman could understand that. When Al Smith ceased to be a Presidential candidate, he used to say that he became a janitor; that is, he ran the Empire State building. Wendell Willkie rejected obscurity and therefore fought the inevitable until his death.

All this points up any way you choose. History does not occur to teach a moral; yet, some read one into its patterns.

Lumbermen Profit By 'Oak Wilt'

COLUMBUS, Jan. 23 — (AP)—Unscrupulous lumbermen are trying to make easy money from the "oak wilt" scare, the state department of natural resources warns.

They are talking some Ohio farmers into selling their trees for a song, by making them believe the trees have the dread fungus disease.

O. A. Alderman, chief of the state's forestry division, advised farmers to find out from their local farm forester if their trees are diseased before they sell them.

Anti-Parimutuel Group Wins Poll

WEST MEMPHIS, Ark., Jan. 23 — (AP)—Religious leaders who bitterly opposed parimutuel gambling won the Dixie Downs referendum by a vote of 1,533 to 1,360.

The Anti-Race Track League's victory wiped out all hope that Dixie Downs, Inc., held for building a \$25 million race track here. The referendum was the last stand for Dixie Downs. A conditional franchise for the track was revoked Monday.

COLUMBUS, Jan. 23 — (AP)—An opinion by Atty. Gen. C. William O'Neill has cleared the way for

Grove, president; Frank Baum, vice-president; and Don Hatfield and R. E. Peters, members. W. E. Essick is clerk.

pay raises for about 4,000 employees in state mental institutions.

The ruling to the Ohio Civil Service Commission approved the raises if institutions can't keep their help under present salary scales.

State Welfare Director John H. Lamneck recently asked the commission to approve pay boosts of two ranges for housekeeping and patient-caring employees in mental hygiene institutions. He said workers were quitting and officials couldn't get 1,000 needed new employees because the pay was too low.

Another major milestone in hauling progress

GMC PRESENTS THE FIRST 2 1/2-TON DIESEL

At last—Diesel economy and hill-leveling performance come to thousands of truckers who have never had any choice but gasoline power in the past!

TODAY America's foremost builder of Diesel trucks smashes the size-weight barrier that up to now has denied the many economies of Diesel power to haulers of medium-weight loads.

Today GMC offers users of equipment in the 19,500 GVW-35,000 GVW range a sensational new Diesel truck-tractor.

It is powered by the first welterweight Diesel truck engine—a smaller, more compact model of the famous General Motors 2-cycle engine that has made GMC America's first-choice Diesel truck.

More Miles per Gallon

Because it is Diesel-powered, this new GMC Model D450-37 will cost you far less to run per mile, far less to maintain per year than any other 2 1/2-tonner you've ever owned. All Diesel experience proves that.

Because it is a 2-cycle Diesel, it is a fast-starting, quick-accelerating, highly responsive truck with plenty of snap in traffic—a truck that will maintain a steady "on time" schedule even on hilly runs.

Fuel economy is automatic thanks to GMC's famous Fuel Modulator. Regardless of throttle pressure this engine never gets more fuel than it needs and makes the most of what it gets. Smooth driving is assured by "easy-turn" recirculating ball-bearing steering—even electric shifting on two-speed axle models.

Nationwide Service

Equally important to the thousands of truckers who can now enjoy the benefits of Diesel power for the first time, this new GMC D450-37 is backed by the nation's largest network of Diesel service stations.

Before you buy another truck, you owe it to yourself to investigate these new GMC welterweight Diesels if you want to cut costs! We will be glad to give you facts and figures that will open your eyes. Why not come in today?

BOWLING GREEN, Jan. 23 — (P)—Henry M. Busch of Cleveland will open his campaign for the Ohio Democratic senatorial nomination at a dinner of fifth district Democratic leaders here Wednesday night.

Busch, a sociology professor at Western Reserve University, seeks

the nomination to oppose Sen. John W. Bricker (R-Ohio) in the November general election. He was a candidate for the Democratic senatorial nomination in 1950, but ran third behind Michael V. Disalle of Toledo and late Auditor Joseph T. Ferguson.

GMC PRESENTS THE FIRST 2 1/2-TON DIESEL

At last— Diesel economy and hill-leveling
performance come to thousands of truckers
who have never had any choice
but gasoline power in the past!

TODAY America's foremost builder of Diesel trucks smashes the size-weight barrier that up to now has denied the many economies of Diesel power to haulers of medium-weight loads.

Today GMC offers users of equipment in the 19,500 GVW-35,000 GCW range a sensational new Diesel truck-tractor.

It is powered by the first welterweight Diesel truck engine—a smaller, more compact model of the famous General Motors 2-cycle engine that has made GMC America's first-choice Diesel truck.

More Miles per Gallon

Because it is Diesel-powered, this new GMC Model D450-37 will cost you far less to run per mile, far less to maintain per year than any other 2 1/2-tonner you've ever owned. All Diesel experience proves that.

Because it is a 2-cycle Diesel, it is a fast-starting, quick-accelerating, highly responsive truck with plenty of snap in traffic—a truck that will maintain a steady "on time" schedule even on hilly runs.

Fuel economy is automatic thanks to GMC's famous Fuel Modulator. Regardless of throttle pressure this engine never gets more fuel than it needs and makes the most of what it gets. Smooth driving is assured by "easy-turn" recirculating ball-bearing steering—even electric shifting on two-speed axle models.

Nationwide Service

Equally important to the thousands of truckers who can now enjoy the benefits of Diesel power for the first time, this new GMC D450-37 is backed by the nation's largest network of Diesel service stations.

Before you buy another truck, you owe it to yourself to investigate these new GMC welterweight Diesels if you want to cut costs! We will be glad to give you facts and figures that will open your eyes. Why not come in today?
